

The National Association of School-Based Teacher Trainers

The National Association of School-Based Teacher Trainers

NASBTT represents the interests of schools-led teacher training provision in relation to the development and implementation of national policy developments.

Our members include SCITT providers, School Direct Lead Schools, Teaching Schools and HEIs as well as a range of other organisations involved in the education and professional development of teachers.

We have 200 plus members representing in excess of 10,000 individual trainees.

"The NASBTT voice is tremendously important. As a Teaching School we get our voice heard at a regional level, but to be represented by the national body of SCITTs and School Direct lead schools is incredibly valuable. I feel welcomed and valued as a member. NASBTT makes a difference to a lot of staff."

Joanne Clipsham, Sharing Excellence Partnership

"NASBTT is always very open, honest and approachable. It helps to bring people together and membership helps us keep on top of things and share best practice - it's very good value for money."

Alison Aherne, Director of Hull SCITT

Key Benefits of Membership

- Representation of the sector in relation to the development and implementation of national policy developments
- Access to member-only tailored content and resources through the NASBTT website including publication libraries, stakeholder resources and useful links
