Information
Following the launch of the third edition of the Training and Assessment Toolkit in December 2017, the purpose of this workshop is to provide an opportunity to take stock of where we are, as providers of ITT, in terms of securing consistently accurate assessment of trainee teachers’ progress linked to the impact they have on pupil learning and progress over time.

Sessions will include:
1. The Toolkit – three years on
   How the rationale and accompanying guidance has been influenced and developed by the experience of application across the sector and the feedback received
   Evidence Bundles – what is best practice telling us about the effectiveness of these in supporting accurate assessment?
2. The Language of ITT Assessment
   Teachers’ Standards: Part Two
   Trainee workload
The day will also include case studies and Q&A forums.
